

LITTLE CHANGE IN "FLU" EPIDEMIC RAGING CHICAGO

2,086 New Cases Reported by Health Commissioner

TOTAL DEATHS
NUMBER 50

CHICAGO, Jan. 22.—The influenza-pneumonia situation continued today near its high level. For the 24 hour period ending at 6 o'clock 2,086 new influenza cases were reported to Health

Deaths from influenza decreased nearly fifty per cent while pneumonia deaths increased 100 per cent. There were thirty-six deaths from influenza reported today as against 61 Wednesday.

New deaths from pneumonia totalled 43, as against 21 yesterday.

Health Commissioner Robertson renewed his contention that the cases are mild.

Following an increased demand for nurses, Dr. Robertson wrote Director Francis W. Shephardson and Supt. F. C. Dods of the state department of registration and education charging them with partial responsibility for the situation. He said that while the legislature was in session he sought to have the nursing law so amended as to grant nurses taking a one year course instead of the present three year requirement a certificate of registration.

From the Great Lakes Naval Training station, Lieutenant Commander Butler, reported 73 new

Dr. Drake Down With Disease. Springfield, Jan. 22.—Dr. C. St. Clair Drake, state director of public health, was taken suddenly ill

at his home here today from influenza. Dr. Drake has been working strenuously to combat the "flu" outbreak in Illinois.

Red Cross Organized.

Washington, Jan. 22.—American Red Cross chapters are organized and prepared to combat the spread of an influenza epi-

Preparedness measures were taken as early as last summer.

Chapter funds appropriated for other purposes it was stated may be used for influenza emergency work.

SURRENDER ELEVEN COMMUNISTS TO U. S.

CHICAGO, Jan. 22.—Eleven communists arrested three weeks ago by State's Attorney Loyne were surrendered to the United States for deportation when arraigned in criminal court today.

Luba and Vera Dokraow, sisters battling federal officers sent to arrest them. The women were overpowered and with their nine associates were rushed to the federal building to be arranged.

Mr. Hoyne is preparing papers for the extradition of a number of Communist Laborites indicted yesterday by the special "red" grand jury.

Ten of the Communist Laborites indicted yesterday were arrested today when they appeared in court. Among the number

as Edgar Owens of Moline, Ill.,
state secretary of the Communist
labor party.

Cases of William D. (Big Bill)
Lawwood, secretary of the I. W.

ood, and several other I. W. W. leaders were continued until January 31.

FOOD REACHES RECORD PRICES

Washington, Jan. 22.—Twenty-two articles of food reached record prices in December, according to a report today by the bu-

Cabbage 36 per cent; onions per cent; sugar 16 per cent;

Not to cease buying, but to buy judiciously should be the order of the day.

There were more people accidentally killed last year in this country than the total casualties among United States troops during the recent war. Carelessness has been responsible for most of the accidents.

In the period between 1909 and 1913, the government-controlled telephone system of France showed a gain of but 0.34 telephones per 100 of inhabitants; in Switzerland it was 0.61 and in Ger-

many, 0.75. In the United States, the privately owned system showed a gain of 1.95 telephones per 100 of inhabitants, indicating the superiority of service to the public of the American lines.

WAR MATERIALS

The war industrial survey reports show that Illinois had a most active and important part in furnishing munitions and materials in the conduct of the war. The reports which have already been submitted show that one of the largest cartridge manufacturing concerns in the country was located in Illinois with plants at Springfield and East Alton. The Western Electric Company, whose factories are located in Chicago, along with other manufacturers of electrical equipment, produced the greater part of the extremely complicated apparatus used by the Signal Corps. Well known firms located at Peoria turned out caterpillar tractors and tanks. Manufacturers of pipe fitting converted their facilities to the production of the Stokes mortar. When the armistice came, many Illinois manufacturers were devoting their entire plants to the production of war material.

It is possible that one of the great questions that will confront the people at the next election will be the league of nations. Whether the covenant will be accepted as it appears in the Treaty of Versailles or whether it will be modified in accordance with the reservations. On November 21st, two days after the Democratic Senators had refused to

ratify the treaty with the reservations included, Senator Lodge issued a statement in which he welcomed the prospect of laying the proposition before the people at a regular election. In that statement Mr. Lodge said: "All I ask now is that we may have the opportunity to lay those reservations before the American people. To that great and final tribunal alone would I appeal. I wish to carry those reservations into the campaign. I wish the American people to read and study them. They are not like the covenant of the league. They are simple. I do not see that there is one of them to which any American can object. I want the people to see them, understand them, and think of them in every household, on every farm, in every shop and factory throughout the land. Then let them decide."

The Democratic party as a whole shun such a contest. "The American people," says Mr. Bryan, "will never transfer to any foreign nation the right to say when our boys shall be sent to war." The Democratic party should never go to the people on such an issue. But it must. The President has decreed it.

FACTS THAT EVERYBODY KNOWS

The Constitution provides that the President may make treaties "by and with the advice and consent of the Senate."

On March 4, 1913, 39 Senators, more than enough to defeat a treaty, signed and placed in the Congressional Record a carefully prepared statement advising the President of their opinion that a peace treaty should be negotiated at once, without a league of nations covenant interpolated and that the league question should be taken up later.

The President refused to consider, but openly defied the advice thus courteously given, and announced his determination to return to America with a treaty in which the league would be so intricately interwoven that the Senate would be compelled to adopt it.

The action of the 39 Senators shows their desire to expedite a peace treaty. If they had desired to annoy the President, or delay peace, they would have kept silent as to their views until after the treaty had been formulated. By making their views known in advance, they demonstrated their good faith beyond question.

On the other hand, by persisting in his course, the President demonstrated his willingness to sacrifice peace in order to have his own personal whims gratified.

If the President had been willing to accept the advice of the Senate, as required by the Constitution, a peace treaty could have been ratified within a week after its submission.

If the President had been willing to leave the league out of the peace treaty and let it be taken up on its own merits, the treaty could have been completed much sooner.

In view of these facts, it is unquestionable that every day's delay in accomplishing legal de-

claration of peace is due solely to the vanity and stubbornness of Woodrow Wilson.

Rippling Rhymes

Making a Hit.

A friend whose name I do not mention had tried for years to gain renown; he tried all ways to win attention, and set folks talking in the town. But all the chances seemed against him, none yielded to his smile or lure; the pent-up Uticas, they fenced him, and kept him painfully obscure. He wrote fine odes and none would read them, men only laugh; he wrote a motor, the guy who has no chow-choo car. When strangers visit in our city, we show the pesthouse and the jail, the editor, so wise and witty, the banker with his bunch of kale. We view the local legislature, the courthouse, with its doors ajar, and then produce that freak of nature, the man who doesn't own a car.

HUNTERS USING AIRPLANES ARRESTED.

The first arrest under the migratory bird treaty act for hunting wild fowls from an airplane was made in Missouri recently when the long arm of the law reached into the air and seized two men for hunting and killing wild geese from an air craft. The arrest was made by a warden of the biological survey, United States department of agriculture, which administers the migratory bird treaty act. Following their arrest the hunters made the trip to the office of the United States commissioner at Caruthersville, Mo., in their plane. They had previously boasted of their ability while flying to herd the geese more effectively than sportsmen on the ground can possibly do. Hunting of the sort in which they engaged is specifically forbidden by the federal law and the regulations thereunder. Several states have passed laws forbidding hunting from airplanes, among them being California, Michigan, New Jersey, North Carolina and South Carolina. There is considerable sentiment in sporting circles against the practice, on the ground that it is unsportsmanlike.

SCOTTVILLE IS UNDER QUARANTINE

Entire Town is Quarantined for Smallpox — None Allowed to Enter or Leave Place.

The entire town of Scottville situated in Macoupin county just over the line from Morgan county is under quarantine for smallpox. No one is allowed to leave or enter the town.

There are at the present time only five or six cases. However, one of these cases attended a public entertainment and practically exposed every resident of the town to the disease.

The cases that have so far developed are of a mild nature and it is believed that with the measures that are taken the disease will not spread.

When a Body is Ailing

Whenever there is disease or suffering in some part of the body, Chiropractic has demonstrated that it is due to the pressure of spinal bones on the nerves that should feed those affected organs. Invariably when this pressure is relieved by Chiropractic Adjustments, the trouble vanishes and healthy conditions are restored.

That is why, if you go to a Chiropractor to be relieved of severe headaches or other troubles, he adjusts that part of the spine where certain nerves are pressed (or squeezed by the moveable bones of the spine). He adjusts the bones back to moveable bones of the spine. He adjusts the bones back to ing forces are set free to build up and strengthen the weakened or diseased parts.

Experience has shown that there is hardly a case of disease or ailment that has not been benefited by Chiropractic Adjustments of the spine. The Chiropractor knows just what part of the spine to adjust for the different troubles. It's all a part of his science and his training.

CHIROPRACTIC

THE BETTER WAY TO HEALTH

is never followed by adverse results. Certainly it has never done anyone any harm, but it has done thousands an immeasurable amount of good. If you are ailing, no doubt the trouble lies in your spine. Try Chiropractic and prove its merits.

CAPTURED AFTER WORLD-WIDE SEARCH
CHICAGO, Jan. 22.—A world-wide search for Herman J. Blumson, charged with defrauding Chicago banks of \$300,000 on forged bills of lading, ended today when word was received by State's Attorney Maclay Hoyne that the fugitive was under arrest in Johannesburg, South Africa.
Secretary of State Lansing and Governor Lowden have been asked to furnish extradition papers and detective Sergeant Edward Kelly, who located Blumson in South Africa after trailing him since last August, will bring the man back.
Blumson, who was formerly head of the state Cereal and Milling company, a director of the State Commercial Savings bank and president of the Jewish Educational Alliance came to the United States 14 years ago from South Africa and started his business career as a rug salesman. He later purchased the flour mill on credit and from then on his rise in the business world was rapid.
Blumson is 63 years old. His wife and family live in Johannesburg.

TEAR DOWN NEW YORK LANDMARK
New York, Jan. 22.—Old St. John's chapel in Varick street, a landmark in downtown New York for more than a century, will soon be replaced by a \$2,000,000 warehouse. The building and site were purchased yesterday from the Trinity church corporation.
When the chapel was erected by Trinity parish between 1802 and 1807, the region was just beginning to be fashionable for homes.

CUMMINGS ANSWERS BRYAN'S CHARGES
WASHINGTON, Jan. 22.—Homer S. Cummings, chairman of the Democratic national committee in a statement tonight declared if complaints of W. J. Bryan made in addresses yesterday in Norfolk and Richmond, Va., were based on the chairman's attendance at the inaugural dinner given Governor E. I. Edwards of New Jersey, Tuesday night at Newark, Mr. Bryan's comments are without merit.
Chairman Cummings asserted that had Mr. Bryan read his speech at the dinner, "he would not have made the comments attributed to him."
His attendance at the Edwards' dinner, the chairman said, connected him in no way with any movement having as its aim, selection of Governor Edwards at the Democratic nominee for president as his position on candidates was one of impartial neutrality.
Mr. Bryan, referring to Mr. Cummings' attendance at the dinner, declared that the chairman must either separate himself from the New Jersey governor or resign.

MAKING PLANS FOR OLYMPIC TRYOUTS
New York, Jan. 22.—The American Olympic committee today received from Pasadena, Calif., a request that the Pacific coast Olympic tryout games be held in that city next summer.
Secretary F. W. Rubien of the American Olympic committee said today that three, possibly four preliminary meets would be held next summer, one in the east, one in the middle west near Chicago and a third on the Pacific Coast with the possibility of a fourth in the south.

HIGH PRICES DUE TO PACKERS' PROFITS
NEWARK, N. J., Jan. 22.—The high cost of living since 1915 has been due largely to the five great packing concerns whose profits from 1915 to 1917, inclusive, were more than \$192,000,000 as compared with \$39,000,000 for the three preceding years, M. B. Colver, chairman of the federal trade commission declared in an address read here today.
"Our own reckless extravagance has been an exceedingly important factor in the creation of the false price structure in our cost of living," the statement said.
"The excess profits tax is another cornerstone in our structure of unhealthy prices."
A representative of Swift and Co., later read a telegram from Mr. Swift in which he denied packers had been responsible for increasing the cost of living.

TUSKEGEE NEGRO CONFERENCE OPENS
Tuskegee Institute, Ala., Jan. 22.—Search for right race relations and burden of bringing both races together in the south rests upon the white man to point the way, declared Governor Thomas Bickett of North Carolina, addressing today the 29th annual Tuskegee negro conference here.
"The white man owes it to his own traditions to his own self respect and to his own self preservation to guarantee to the negro the fullest protection of the law."

DEMPSEY URGES AN INVESTIGATION
New York, Jan. 22.—Jack Dempsey, heavyweight champion, has asked that an official investigation be made of the informal charges that he was a draft dodger during the war. The request came in a telegram today to Major A. J. Drexel Biddle, president of the army, navy and civilian boxing board, which it is understood will conduct the inquiry asked. Dempsey points out that the A. N. C. B. B., issued a professional boxer's license to him prior to the match with Jess Willard, which certified he had a clean and honorable record as a professional boxer and that he had the full sanction and approval of the board.
Dempsey states that he followed implicitly instructions given him in draft matters and denies he was a draft dodger. He offers to present himself before the board or to submit a complete statement of his war activities and agrees to abide by the final decision of the board. The A. N. C. B. B. has announced Dempsey's request will be referred to its arbitration board for decision as to whether such an inquiry should be undertaken.

REPORT POSITION OF DENIKINE BETTER
London, Jan. 22.—The position of General Denikine, anti-Bolshevik leader in Southern Russia to all appearances is somewhat better according to the war office summary. The pause which must follow a long and rapid offensive as that conducted by the Bolsheviks has occurred. The course of the operations probably will favor the side able to reorganize. This will be easier for General Denikine who is nearer his base than the Bolsheviks, who have gone deep into enemy country.
Much depends upon the support afforded Denikine by the population. Latest reports seem to indicate he still commands their full confidence. However his losses in the retreat are bound to have a broad effect.
Meanwhile Don is swollen by rains, making it difficult of passage and the Don and Caucasus armies have thus gained a valuable respite.
Moreover imminent danger has caused the Don and Kuban Cossacks to rally around the government. The Bolshevik advance in Siberia appears to have slowed. The allied high commissioner has received a message from Admiral Kolchak at Nijni-Udinsk, stating that he is remaining there with the ministers of his suite.

PRISONERS GIVEN SEVERE PUNISHMENT
NEW YORK, Jan. 22.—Charges that iron torture chambers have been introduced by Col. R. D. Johnson, executive officer at Alcatraz Island, San Francisco, in which conscientious objectors of the "absolutist" type imprisoned there, are placed, were made in a statement issued tonight by the National Civil Liberties Bureau. It was stated the matter would be placed before Secretary Baker.
Robert Simmons, serving a ten year sentence after being captured in solitary confinement, has been "transferred to the torturing device, in which he is kept," the statement declared. He is "unable to sit down, lie down, or stand; it is practically an iron straight jacket."

GOITRE. Basedow Disease (Big Neck)
THE TERM GOITRE is loosely used to express any enlargement of the thyroid gland, when it should apply only to non-inflammatory innocent tumors of the thyroid gland, while true Exophthalmic Goitre is a really separate and distinct disease and will be mostly considered here. Women about twenty times more than men are victims. In all history of diseases—there is not one that is as dangerous and as far reaching in its effects on health and life of women to which so little attention is paid. From the standpoint of the surgeon, we recognize six types of simple goitres—parenchymatous—colloid-adenoma of the thyroid—mixed—cystic—fibrous. And as a special clinical variety, we speak of substernal, or intrathoracic goitre (when the enlargement extends downward into the mediastinum—between the sternum and trachea.)
THE DISEASE MAY develop at any age between two and sixty. We have operated and reported a case in a child of three years of age, sent to us from the State of Virginia. But between fifteen and thirty years of age it is most frequent.
EXOPHTHALMIC GOITRE is a mysterious malady usually manifested by three sets of prominent symptoms, viz: enlargement of thyroid gland (big neck), protrusion of eye balls, and disturbance of the vascular system (over action of the heart). The disease was first described by Graves in 1835 while Basedow of Germany gave his first description in 1840, hence this disease takes the names of both writers. It is probably due to over activity of the thyroid and adrenal glands, which flood the organism with thyroid substance followed by a chain of characteristic symptoms.
WHAT IS THE CAUSE? That is an unsettled question. But we do know that emotion, sudden terror, fright or prolonged distress are causative factors. The very great number of cases seen in Alsace and Lorraine following the Franco-German war will never be forgotten. General neuropathic inheritance, indicated by epilepsy or insanity in relatives, violent exertion, injuries to head, cold, alcoholic excess, acute diseases as, scarlet fever, pneumonia, rheumatism, diarrhoea, diseases affecting the nose, as adenoids, etc., all play their part. Sometimes several in one family may be affected, where there is derangement of the nervous system on part of the mother or father. We note here—in one prominent family of Beardstown, Illinois—we operated on four girls for this disease and still another has it.
USUALLY, THE FIRST and most important symptom is the disturbance to the circulatory system. There is no Graves' disease (Exophthalmic Goitre) without disturbance to the circulation. The patient may complain of palpitation and rapid heart beat for years without any other noticeable evidences, but that constant rapid heart action (90-200)—minus of any febrile disease or poisoning from any endogenous or exogenous matter—is very probably due to Exophthalmic Goitre. The heart often enlarges, the valves may become affected from the strain upon them as well as the ventricles, the arteries, especially, those of the neck and thyroid dilate and those of the abdomen and body generally may follow.
THE SECOND prominent symptom is protrusion of the eye balls—sometimes this is so great that one or both balls become dislocated from their sockets.
THE THIRD SYMPTOM is enlarged thyroid gland which may accompany or follow Exophthalmos. The enlargement may be little or great. The nervous system often suffers greatly—neurasthenia develops—mental disturbances sooner or later—depression or great excitability are very common and may lead to insanity. The general health suffers, headaches, insomnia, vertigo, cough from pressure, the skin may present many changes—as, oedema, forms of eczema, loss of hair, muscular weakness, anemia, emaciation and a shortening of the natural life by several years. Many women and young women have this disease and don't know it. Frequently, we are consulted by patients with dyspnea (shortness of breath) weakness, palpitation, etc., when goitre is the cause.
LET ME ADVISE YOU for your own good—Any time that your attention is attracted to the function of any organ by its action something is wrong, and in the case of Exophthalmic Goitre you are inviting suffering and flirting with Death. "What should I do?" The way is plain—see a physician—if your case is diagnosed as Goitre your physician will probably take you to a surgeon as soon as possible. More and more we are finding that this is a surgical disease. With the great advancement in surgery and surgical technique in the last ten years, there needs be little fear of the knife in these cases. In the last 32 goitre operations at The New Home Sanitarium not a single death.
YOUNG WOMEN, improve your looks, be comfortable, extend your life, turn your backs on skepticisms, ignorance and death.
WATCH FOR Bulletin No. 9 for expectant mothers.

DUMAS SITUATION REPORTED NORMAL
Dumas, Ark., Jan. 22.—Federal troops sent here today in connection with threatened race trouble at a negro settlement near Dumas will return to Camp Pike, Ark., tomorrow it was stated tonight if the situation is reported normal. Governor Charles Brough will return with them.
The troops did not go to the settlement as civilian posse already had ascertained that the negroes who caused the disturbance by an attack late yesterday upon a white deputy sheriff and two companions had fled.

STRIKERS URGE RED FLAG PARADE
Honolulu, Jan. 22.—A red flag parade of sugar plantation strikers was urged here today by the Japanese newspaper Shingo.
The Shingo and another Japanese newspaper, the Shoho, urged that the Japanese extend the strike to all plantations.
An armed riot squad has left for the scene of the strike as the result of an exchange of shots between the police and strikers today.
Six hundred Japanese who struck on the Honolulu plantation yesterday returned to work today.

LARGE VACCINATION TASK UNDERWAY
Riga, Jan. 22. (By The Associated Press)—The largest single vaccination task undertaken in Europe is being started by the American Red Cross near Dvinsk. More than 400,000 vaccinations are to be performed in an effort to prevent the spread of smallpox.
Dvinsk was captured from the Bolsheviks three weeks ago by the Poles and Letts.

Better Light for Less Money BY USING THE COLEMAN QUICK-LITE
A 300 candle power "Quick-Lite," burning the average number of hours each evening that any family requires, will cost but 10c per week to operate. No other lamp can duplicate this record for economy.
The "Quick-Lite" makes its own gas from common gasoline. It is safer than an oil lamp and easier to operate. Lights with the heat of a match—no torch or alcohol needed. It creates no dust, smoke or smell and has no chimney to break. It is made of brass and will last a lifetime.
The "Quick-Lite" makes a brilliant white light—the kind that is easy to read by.
No farm home should be without this lamp—and you city folks could save lots of money through their use.
We are selling lots of them—and they are proving every assertion we make.

AAC G. LAZENBY DIES FROM AUTO ACCIDENT

Aged Resident Receives Injuries When Struck by Automobile That Causes Death a Few Hours Later—Accident Occurred in West North Street—Auto Driven by Carl Hook.

Isaac G. Lazenby, a well known resident of the city, was struck by an automobile driven by Carl

Hook in West North street about 8 o'clock Thursday night and received injuries from which he died at Passavant Hospital two hours later.

The accident occurred in front of the residence of C. C. Berryman, 835 West North street. Mr. Hook was coming down town and was driving east. Mr. Lazenby who spent a short time nearly every evening at the Briggs grocery store was returning home.

Mr. Hook said he did not see Mr. Lazenby until he was less than three feet from the car. He immediately applied the emergency brake but could not avoid striking him. Mr. Hook stated he was not driving fast, that this statement is true is shown by the fact that when he stopped the car Mr. Lazenby was under it.

Several persons were soon at the scene of the accident and assisted Mr. Hook. Dr. Rowe was also summoned and arrived in a few minutes.

He had Mr. Lazenby taken to Passavant Hospital where he and Dr. Haingrove made an examination to ascertain the extent of his injuries. It was found he had

sustained a compound fracture on the left side of the head and severe bruises about the body. Everything possible was done but to no avail. Mr. Lazenby dying at 10:15 o'clock without regaining consciousness.

After the accident Mr. Hook did everything in his power to assist the family. Mr. Hook deeply deplored the accident but several who saw it said it could not have been avoided.

Dr. Rowe who has been Mr. Lazenby's physician for a number of years said that he had been failing rapidly in recent months. He was of the opinion that he must have become confused by the lights of the car or else seized with a spell of dizziness.

Isaac G. Lazenby was one of the old residents of the county. He was the son of John and Sarah Green Lazenby and was born on the home farm west of the city in 1843, being at the time of death 77 years of age.

In 1867 he was united in marriage to Miss Rachel Richardson who preceded him in death in 1902. One daughter, Mrs. Jennie Gilbert also preceded him in death.

There survive, one son John W. Lazenby, who resides west of the city and one daughter, Mrs. David Coultas. He also leaves one brother, William of Knobnoster, Mo.

During the greater portion of his life Mr. Lazenby followed the occupation of farming and was accounted successful in that calling. Some years ago he retired from active work and moved to the city where he has lived a retired life. During recent years he has been a familiar figure on the streets of the city. He was a man of genial disposition and numbered his friends by the score.

The remains were removed to the undertaking parlors of W. W. Gillham and prepared for burial. The time of the funeral will be announced later.

EWEN I. WHITLOCK DIES IN CHICAGO

Well Known Young Man Passes Away After Illness of Several Months—Was Employed in Dunlap-Russel and Ayers Bank for Many Years.

Ewen I. Whitlock for many years an employee of the Dunlap-Russel and Ayers National banks died at 8 o'clock Thursday morning where he had been for a number of months for treatment.

Deceased was the son of Isaiah and Mary Spires Whitlock and was born on a farm near Murrayville October 25, 1875.

After completing the work of the schools in the vicinity in which he lived he attended college at Bushnell and later came to Jacksonville where he graduated from Brown's Business College.

He then entered the employ of the banking house of Dunlap-Russel & Company. He held the position of teller there for a long period. When the new Ayers bank was built he was named vault clerk which position he held until his appointment as deputy revenue collector, which he held at the time of his death.

In 1913 Mr. Whitlock was united in marriage to Miss Eloise Smith who passed away a few months after their marriage.

Mr. Whitlock was a member of the first Baptist church in this city. He was a young man of much promise and news of his death will be received with regret by a large number of friends.

He is survived by his parents, two sisters, Mrs. Lulu C. Chambers of Rockford, Miss Bertha Whitlock at home, two brothers, H. T. Whitlock and G. C. Whitlock of Murrayville.

H. T. Whitlock was at the bedside of his brother when the end came. He will bring the remains to Jacksonville, arriving here over the Wabash this morning. They will be taken to the home of Misses Maude and Alice Smith, 138 Park street.

The hour of the funeral will be announced later.

KNIGHTS OF COLUMBUS WILL PLAY VIRGINIA

Will take on fast Cas county Independents at Liberty Hall tonight. The Knights had a game booked earlier in the week with the Chandlerville team. However, one of the players got a sore toe or "cold feet" we don't know which, and the manager cancelled the game.

The Virginia Indians have the reputation of being a fast bunch. The team is made up of former high school stars and has defeated some good teams. The Knights have been practicing hard the past few days and have shown greatly improved condition over that of their last appearance. The men are determined to bring home the bacon in this contest.

The team will be selected from the following players: Froelich, Rook, Rexroat, forwards: Clancy, Hamilton, center: Guards, Cain, Foley, Flynn, Costello, Topping.

ATTENTION, W. R. C. The Woman's Relief Corps will hold its regular meeting in the G. A. R. hall this afternoon at 2:30 o'clock. Belle Hopper, President. Angie P. Weber, Press Cor.

VISITING RELATIVES.

MISS BERTHA MUNZE WEDS PENNSYLVANIAN

Winchester Girl Who Has Been in the Red Cross Government Nursing Service is Married to Former Soldier Patient—Other Notes of Interest of Winchester and Vicinity.

Winchester, Jan. 22.—The announcement of the marriage of Miss Bertha Munze, daughter of Mr. and Mrs. Christopher Munze of this place, to Ralph Clader of Wilkes Barre, Pa., which occurred at Carlisle, Pa., Jan. 10th, was made known locally by the arrival of the bridal couple in Winchester Wednesday evening. The ceremony was performed at St. Paul's Lutheran church by Rev. Stock. Mr. and Mrs. Clader will visit here for several days at the home of Mr. and Mrs. Munze before going to housekeeping in Carlisle.

Mrs. Clader is a graduate of Winchester high school. Soon after graduating she took up the study of nursing and at the declaration of war by this country was ready to do her part, as a nurse, in the great conflict. She served during the early months of the war at an army hospital in Vaco, Texas, later being transferred to eastern states. During the past year Mrs. Clader has been in charge of a large army hospital at Carlisle, Pa., and it is said that one of her first patients at this institution was a young soldier of Wilkes Barre, Pa., who had but lately returned from overseas service in France.

Mr. Clader will finish his course at the University of Pennsylvania with an attendance of about six months. Like hundreds of other college men of the country his education was temporarily halted by the war.

Mrs. Clader expects to receive her honorable discharge papers from the government about the third of next month. Her many friends in this community will extend hearty congratulations and best wishes for a long and happy wedded life.

No Smallpox in Winchester. It has been reported the past few days that there are several cases of smallpox here. We are glad to say there are none and has not been a case in Winchester this winter.

JAMES R. TAYLOR DIES SUDDENLY

Well Known Resident of Chapin Passes Away Thursday Afternoon Had Lived in Chapin All His Life—Coroner Rose Held Inquest.

Chapin, Jan. 22.—(Special to Journal).—James Riley Taylor, a well known resident of this place, died suddenly at 4:15 o'clock this afternoon in the general store of R. A. Phillips.

Just a few moments before his death Mr. Taylor was laughing and joking with a young lady who is employed in the Phillips store. Suddenly he fell from his chair to the floor.

The stricken man was placed on a temporary bed by Mr. Phillips and Dr. J. H. Fountain summoned. When the physician arrived Mr. Taylor was barely breathing and expired soon afterward.

Coroner Rose was notified and went to Chapin and held an inquest Thursday evening. The jury was composed of Walter Woodward, foreman; Frank Pond, H. C. Brodeman, Albert Anderson, Jesse W. Lane and J. L. Dunnaway, clerk.

The jury heard the testimony of R. A. Phillips and Dr. J. H. Fountain. Mr. Phillips told of Mr. Taylor being in the store and said he was laughing and joking with a young lady clerk. Suddenly he fell from his chair. Witnesses said he placed him on a temporary couch and summoned Dr. J. H. Fountain.

Dr. J. H. Fountain said he was summoned to the Phillips store about 4:15 o'clock. He found Mr. Taylor lying on a temporary bed in a dying condition. He only made one effort at breathing after his arrival. Dr. Fountain said, and expired. Dr. Fountain gave his opinion that death resulted from cerebral hemorrhage.

After hearing the testimony the jury returned a verdict in accordance with the facts.

Deceased was a member of a well known family and had been a resident of Chapin all his life. He was 71 years of age at the time of death. His wife preceded him in death several years ago.

He is survived by three brothers, Sinclair Taylor, of Chapin; Col. Charles Taylor, Chapin, and Winfred Taylor of Kansas City, and one sister, Mrs. Caroline Lamberth, Los Angeles, California. He also leaves several nephews and nieces. Col. Taylor is in St. Cloud, Florida, spending the winter. He has been notified and will return to Chapin for the funeral, the time of which will be announced later.

Funerals

Sheppard.

Funeral services for Norman Sheppard were held from the residence, 1030 Hackett avenue at 2:30 o'clock Thursday afternoon in charge of the Rev. Walter E. Spontus, assisted by the Rev. W. H. Marbach. The members of Jacksonville Camp No. 912 M. W. A. attended the services in a body and had charge at the grave. Music was furnished by Miss Cora Graham, Mrs. Mae Hitt, T. H. Rapp and W. W. Gilliam. The flowers were in charge of Miss Ruth Brasel, Miss Catherine Davis, Miss Mabel Ruyle and Miss Gladys Ruyle.

Burial was in Jacksonville cemetery, the bearers being William Hopper, Charles Balslev, Charles Patterson, Charles DeSilva, John McHenry and John Baptist.

Palmer.

Coy Edward Palmer, the infant son of Mr. and Mrs. C. J. Palmer of near Woodson, died at an early hour Wednesday morning, Jan. 21, at the age of 1 year, 3 months, 1 day.

Owing to the serious illness of Mrs. Palmer's sister, Mrs. William Tracy, of Jerseyville, the funeral was conducted at 10 o'clock Thursday morning at the Mur-rayville Catholic church, Rev. R. Flynn, officiating. The servers were Thomas M. Ring and Thomas H. Begnel. The bearers were Thomas Connolly, Leo and Leonard Begnel and Louis Lonergan, all cousins of the deceased.

"Thy Will Be Done," "Hold Thou My Hands," and "Star of the Sea" were beautifully rendered by Miss Stella and Frank Flynn and P. L. Sheehan, accompanied by Miss Alma Flynn.

The beautiful floral offerings were tenderly cared for by Miss Stella Flynn.

FLU NOT EPIDEMIC IN WHITE HALL

Mayor Sees No Evidence of Reappearance of Disease in Greene County City—New Alton Time Card Effective.

White Hall, Jan. 22.—Mayor F. N. McLaren, in discussing the health situation today states that there is no evidence of an epidemic of influenza in White Hall, and that the heroic measures adopted in stamping out smallpox brought on such fierce criticism that he hopes there will be no occasion for a recurrence of health board action such as the December quarantine which gave him a good run for his money. He claims that the drastic health order last month reduced smallpox fifty per cent in two weeks, and that the disease has all completely disappeared from the community. The influenza epidemic over the country a year ago produced something like fifty per cent of cases among the local population, and that the greater part of those who did not have influenza at that time are probably immune, rendering the

possibility of a recurrence of an epidemic of influenza rather remote. In any event, the mayor says, he will be on the job in combating any appearance of it. Miss Mary Carr was called to St. Louis Wednesday by the illness of Mrs. A. E. Meisenbach.

The condition of Mrs. W. A. Johnson, who is in a hospital at Springfield, is reported to be rather discouraging. Mr. Johnson is also a patient in St. John's hospital.

The new time card on the C. & A., effective at 12:01 a. m., Sunday, eliminates two passenger trains thru White Hall, leaving only two trains each way. The Jacksonville accommodation will go south at 7:52 a. m., and north at 7:50 p. m. ten minutes later than before. The service between Bloomington and St. Louis via Jacksonville will pass White Hall south at 12 noon and go north at 1:25 p. m., the latter train making connection at Roodhouse for Kansas City. The northbound train at 7:50 p. m. makes connection with a local train at Roodhouse for Mexico, Mo. The Hummer runs between Chicago and Kansas City are run only a few minutes later thru Roodhouse, going west at 12:15 a. m.,

and north at 2 a. m. An announcement by The Country Gentleman of a series of swine articles by Mr. Pickett is presented this week in an elaborate manner, the frontispiece being a picture of Masterpiece, the foundation boar of the Gregory Farm herd of Berkshires.

Clover Seed

We all know the big benefit the soil derives from clover. We also know the great amount of wasted effort in fighting different conditions, trying to obtain a stand. Why should we waste our seed and time, when it is unnecessary? Who can tell, but we are safe in saying 25 per cent of clover seed sown in our county is wasted. It is our desire to help our farmers to stop this waste, we profit by their benefit, this is our "Reason."

The Alfalfa and Grass Seed Drill successfully overcomes the expensive and uncertain results obtained from broadcasting Clover, Alfalfa and other small grass seeds. In broadcasting these costly seeds there is a great waste, it is uncertain as to results, the seed is sown more or less uneven, is blown in patches by the wind, washed by rains, leaving it too thick or too thin in places, part is covered too deeply, part not deep enough, and much left on top of the ground is picked up by the birds. Therefore, many times more seed is required than necessary if all seed were put in the ground and covered uniform depth.

Call in and See This Drill

This drill sows the exact quantity desired. Not necessary to sow more good seed than actually required for a good stand of grasses. The seed is sown in rows 4 inches apart, conceded to be the proper width for Clover and grasses, because it produces the largest yield. All the seed is put IN the ground, not on top, deposited and covered uniform depth without waste. Even sowing means even growing. It makes a perfect seed bed, saves costly seed, insures against total failure, and increases the yield. Every tiny seed has a chance to germinate and produce a sturdy, vigorous, deep-rooted plant.

There are 18,000 Red Clover Seeds in an ounce or 288,000 to a pound. Fifteen thousand Alfalfa Seeds in an ounce or 240,000 to a pound. We have 43,560 square feet in an acre which means an average of 6½ Red Clover Seeds and 5½ Alfalfa Seeds to a square foot for every pound of seed sown. In the quantities usually broadcasted an average of 66 Red Clover Seeds and often 125 Alfalfa Seeds are deposited upon each square foot of ground, many times the number of plants the ground can support.

How much expensive seed do you waste in broadcasting? Drill the Clover Seed in winter wheat with the Alfalfa and Grass Seed Drill. Do not mud it in. Wait until the ground is right. This Drill will put the seed down in the moist earth where it germinates quickly and grows rapidly. The disks are set at a slight angle to give easy penetration. They cultivate the growing wheat without tearing up or injuring the plants, put new life and vigor into the growing plants, increasing the yield from three to five bushels per acre.

AGE AND THE PRESIDENCY

Wilson, at 63, is the Oldest Chief Executive Since Buchanan—Six of First Eight Men at Head of Nation Were Past 65 When Terms Ended—Pierce Lived to See Four Successors.

From the Philadelphia Record. President Wilson, who was 63 years old December 28, is the oldest man to occupy the White House since Buchanan, who entered it at 66 and retired at 70. Any one who runs over the history of the presidency will be struck by the rise and fall of the age at which presidents have entered and retired from office, and the varying length of time by which they have outlived retirement. Of the first eight presidents, all but two of whom served two terms each, six retired when past 65, one of them, Jackson, within eleven days of his seventieth birthday. The first Adams retired at 62, Van Buren at 59. Of these eight, four lived to be past 80. One passed 78 and another passed 79. Washington alone of them failed to reach 70. The first Adams outlived retirement by twenty-five years, and Jefferson, who died on the same day with Adams, July 4, 1826, the fiftieth anniversary of Independence, outlived retirement seventeen years. Monroe, who retired at 67, died July 4, 1831.

Since Jackson no President except Wilson, Buchanan, Taylor and the first Harrison has sat in the White House when 61 years old. Of all who have served in that time, ten retired or died in office before reaching 57, and only two outlived retirement by only five years. Not one lived to be 80 and only five passed 70. Polk outlived retirement less than six months, and died at 54 younger than any other ex-President. Few Presidents in the last fifty years have lived to see three of their successors, and several have not seen two, though Pierce saw four.

Less exacting in Early Days. Although the average length of human life in the United States is greater than it was when the republic was young, distinguished public men have hardly shared in the boon of lengthened days. The presidency, indeed, while never exactly what everyday folk call a soft snap, was a far less exacting office in early time than it is today. The Napoleonic wars gave Washington, the first Adams, Jefferson and Madison a good many trying hours, but they all had their periods of respite. Washington, wherever he happened to be as chief magistrate, managed to escape now and again to the spacious and dignified quiet of Mount Vernon. John Adams, the first President to occupy the White House at Washington, the domestic arrangements of which appeared "impossible" to his thrifty and orderly New England wife, often returned to the quiet of his home at Quincy. Jefferson found repose at Monticello, and Jackson made the long journey to the Hermitage, where he awaited his coming, where he awaited his coming.

All of the early Presidents were safe from intrusive messages by telegraph or telephone, and they received mail in no such masses as now daily pursue a President on vacation. Even Polk could not have been much disturbed by the stammering words of Morse's new-fangled messenger, for it was publicly used for the first time in reporting to congress the result of the Democratic national convention at Baltimore in 1844.

Went Home to Rest. Buchanan used to go home to Wheatland for a bit of rest, and was a familiar figure in summer time at Bedford Springs, where he walked about unattended, just like a private citizen, and talked with anybody who had the hardihood to approach him. Grant's stay at Long Branch gave that resort popularity as "the summer capital." Cleveland, one of the hardest worked of Presidents because he attempted to give personal attention to details that no President of today can possibly examine at first hand, liked to bury himself at Buzzard's Bay and fish with old cronies. Mr. Roosevelt, who seemed to carry his load jauntily, managed to get some respite from public cares by open air exercise. An old guide in the Adirondacks still boasts of having rowed McKinley for seventeen hours in a single day through lakes and rivers in the blessed quiet of the North woods.

Even the White House used to be a place where a President could get a bit of relief, and when things were too hot there Lincoln found refuge at the Soldiers' home across the Potomac, whether he rode with a small guard. It was the opportunity thus presented that led to the kidnapping of which Booth turned into a plot for wholesale assassination. Now the White House is a huge palace with a business office near at hand and the lovely grounds are open much of the time to all comers, and within sight of passing thousands, so there is little chance to rest there.

THREE-SCREEN MOVIE SHOW
From the Christian Science Monitor.

History seems to be repeating itself in popular entertainment; at any rate, the plans of a new motion picture enterprise, in Boston, which will cover three separate motion picture exhibitions under a single roof, recalls the growth of the circus from one to three. The three motion picture performances, to be sure, are not all visible at once, but the enterprise seems plausible enough based on the same economic situation. It furnishes in the same structure room for three audiences, which was the purpose of the three-ring circus,

presenting practically the same kind of performance in each ring simultaneously, and thus providing for meeting a popular interest that had outgrown the one-ring tent. Like the three-ring circus, the three-screen motion picture theater may appeal to many people's admiration for bigness, even if the included theaters are out of sight of each other.

Cincinnati Authority Says Troublesome Corns Just Loosen and Fall off

Sore corns, hard corns, soft corns or corns between the toes just loosen in their sockets and fall off the next day if you will apply directly upon the corn a few drops of a drug called frezone, says a Cincinnati authority. You merely put a drop or two of this frezone on the tender, touchy corn today and instantly the corn stops hurting, then tomorrow sometime you may find the old tortuous pest somewhere in your stocking, having fallen off entirely without a particle of soreness, pain or irritation. The skin surrounding and beneath the former corn will be as healthy, pink and smooth as the palm of your hand.

A quarter ounce of frezone is sufficient to rid one's feet of every corn and callus, and any druggist will charge but a few cents for it. It is a compound made from ether. —Adv.

HOW SOLDIER DISPERSED ATTACKS

"For two years my stomach trouble was very bad, my doctor had to inject morphine on several occasions when I was stricken with these attacks. Since taking 4 bottles of May's Wonderful Remedy I have been entirely well and am serving in the artillery, having been pronounced in perfect health by government physicians." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale at all druggists.—Adv.

HEARTBURN Caused by Acid-Stomach

That bitter heartburn, belching, flatulence, indigestion, bloating after eating, all are caused by acid stomach. But there are only first symptoms—danger signals!—warn you of ailing troubles if not stopped. Headache, biliousness, rheumatism, scurvy, that tired, listless feeling, lack of energy, dizziness, insomnia, even cancer and ulcer of the intestine and many other ailments are traceable to ACID-STOMACH.

Thousands—yes, millions—of people who ought to be well and strong are more weaklings because of acid-stomach. They really starve in the midst of plenty because they do not get enough strength and vitality from the food they eat. Take EATONIC and give your stomach a chance to do its work right. Make it strong, cool, sweet and comfortable. EATONIC brings quick relief for heartburn, belching, indigestion and other stomach troubles. Improves digestion—helps you get full strength from your food. Thousands say EATONIC is the most wonderful stomach remedy in the world. Brought them relief when every thing else failed.

Our best testimonial is what EATONIC will do for you. So get a big box of EATONIC today from your druggist, use it five days. If you're not pleased, return it and get your money back.

Here's one of the new ones Varsity Fifty Five in a Double Breasted. We'll show you any number of smart ones.

When you say, 'What's the price'

When you come in here and pick out a suit and say to the salesman "How much?"

He'll say "\$40" perhaps, or maybe "\$50" or "\$60"—depends on the suit you choose.

You may say "Why, I can beat that price \$5 or \$10."

Probably you can; but that isn't the point, you can't get as much clothes value for your money anywhere else; that \$5 or \$10 is in the suit; it's the \$5 or \$10 that makes good quality possible; and that makes the suit outwear the cheaper one two to one.

First Cost

We can't compete for battery business on price.

Willard service does cost more, so does a Willard Battery. But isn't it true that if you hire a real engineer, or architect, or contractor, or carpenter, or mechanic, or doctor, or lawyer, that it saves in the long run?

We're in business to do the job right the first time—and that costs more than to fix it so it has to be done over again soon after.

When we sell a Willard Battery with Threaded Rubber Insulation we charge more for it, but it doesn't come back for re-insulation with a big bill to you. It stays on the job till it has delivered all the service you bought—and generally a lot more than you'd believe possible.

Try it once—and you'll feel the same as 99% of all who own Willard Batteries with Threaded Rubber Insulation.

Drop in, glad to see you.

NEIGHBORHOOD IS ASTONISHED

Mrs. Arnold Was Down to Only Seventy Five Pounds but Now is Picture of Health.

"My wife and I have both put Tanlac to test and found it to be the greatest medicine we ever ran across," said James E. Arnold, of 705 First Avenue, Peoria, Ill., recently in connection with the Premier Preparation.

Indeed, Mr. Arnold's statement is so remarkable as to be almost incredible and, realizing this fact, he refers anyone, who may wish to verify the facts, to his friends and neighbors.

"My wife really has more to say for Tanlac than I have," he continued, "for she was in much worse shape. She had suffered for ten years, or more, with her nerves, which were so shattered she would get out of bed at night and sit up for hours. Her kidneys and bladder had bothered her for a good many years and she had become a complete nervous wreck. I had seen her with such fearful pains in her back that she couldn't get out of bed without help and, for a long time, she was unable to raise her hands and comb her hair on account of those awful pains. She had tried so many medicines without results that we both got clear out of heart. Then, last winter, while the 'flu' was raging she was taken with that, followed by pneumonia, and I could see no hope for her recovery. They took her to a hospital where she stayed for eight weeks right at death's door. She weighed only seventy-five pounds, was just a frame of skin and bones, and hadn't the color of blood in her face. We sent for her relatives because neither she nor anyone else thought she could live long. She could neither eat nor sleep and was in agony from pain all the time.

"One day a friend of mine told me how Tanlac had built up his wife so wonderfully that I bought six bottles for Mrs. Arnold. She stopped everything else, began taking the Tanlac, and the results have been nothing less than astonishing. Just ask our friends and neighbors, they all know what Tanlac has done for her and will tell you that she is now the very picture of health. She now weighs better than one hundred and thirty pounds, never has a sign of nervousness or feels a pain, and is as happy as anyone could be.

"Now as to my case: I had not eaten a meal in twenty years but what would cause me trouble. I would blot all up with sour gas and at times have the worst kind of cramping pains in my stomach. I had not been able to get a good night's sleep or do a full day's work in years. My strength would leave me in the middle of the day and work was a burden to me. I had been laid up for several days at a time with sick headache. This is just the kind of misery I was in when I saw how Tanlac was helping my wife. So I began taking it myself and six bottles has made a well man of me. I feel ten years younger, eat just anything, sleep like a log at night, and weigh thirty pounds more than I did the day I began taking Tanlac. I can now do my work with no drag and Tanlac has meant so much to my wife and I both that we will never be able to express our heartfelt gratitude. It has made life altogether different for us."

Tanlac is sold in Jacksonville by Coover & Shreve; in Meredosia by Mr. R. B. Field; in Murrayville by M. E. Gilbert; in Waverly by Wyle Drug Co.; in Woodstock by The Hoy Pharmacy; in Chapin by John Onken & Bros.; and in Alexander by Frank J. Kaiser.—Adv.

Miller's Antiseptic Oil, Known as SNAKE OIL

Accomplishing Most Wonderful Results.

"I want to thank you for your wonderful oil," writes Mr. J. C. Gibson of Jonesboro, Ark. "My little girl was very low with diphtheria; I had given her two doses of medicine which cost me \$10 with no results. I bought a 25c bottle of your oil and one application relieved her. Now she is well. It is the greatest remedy I ever saw." Mr. Gibson made this statement before hundreds of people.

Mrs. Florence Meager, 234 Whitney street, Hartford, Conn., writes: "I have used your Antiseptic Oil for neuralgia with good effects. Only thing I have ever tried that stopped the pain immediately." Mrs. Williams, Gadsden, Ala., writes: "I have used your great pain oil for rheumatism, stiff joints, also for sore throat, and I want to say that it is the greatest remedy I ever tried. I recommend it to all sufferers." Many cures reported daily from thousands of grateful users of this wonderful oil. Every bottle guaranteed, 30c, 60c and \$1.00 a bottle, or money refunded, at Armstrong & Armstrong.—Adv.

GRIP, INFLUENZA

Hamlin's Wizard Oil a Reliable, Anti-septic Preventive

During influenza epidemics spray the nose and throat several times a day with one part Wizard Oil and two parts water, using an atomizer. If you haven't an atomizer, gargle the throat and sniff the mixture up the nose. This treatment sets up an antiseptic wall of defense against "flu" germs.

Chest colds and sore throat lead to grip. Stop them at once with Wizard Oil before they can develop into dangerous influenza.

Get it from druggists for 30c. If not satisfied, return the bottle and get your money back.

Ever constipated or have sick headache? Just try Wizard Liver Whips, pleasant little pink pills, 30c at druggists. Guaranteed.—Adv.

MEMORIAL SERVICE FOR DR. CYRIL G. HOPKINS

Hundreds Pay Last Tribute of Respect to Former Head of Agronomy Department of State University.

Urbana, Ill., Jan. 22.—Hundreds of farmers from all over the state, here attending the annual Corn Growers and Stockmen's Convention, together with citizens of the Twin Cities and faculty members of the University of Illinois, filled the University Auditorium to overflowing today to pay respects to the memory of Dr. Cyril G. Hopkins, the world's foremost authority on soil, and for years head of the Agronomy department of the University of Illinois. Dr. Hopkins died last October when enroute home from Greece where he had spent a year in helping the people of that country reclaim their worn out soils.

Chief interest in the meeting centered around the proposed plan to provide for some permanent memorial which will perpetuate the work carried on by Dr. Hopkins. Frank I. Mann, of Gliman, a member of the University of Illinois Soils Advisory Committee, told of the plan of the State Farmers' Institute to carry this project thru. No definite conclusions have been reached but a sum of money in the form of an endowment, perhaps as large as \$1,000,000, will doubtless be the final decision. Such a sum will make it possible for Illinois to be the center of soil development of the United States, if not of the world, for all times.

Dean Eugene Davenport of the College of Agriculture, presided at the meeting and later spoke on "Doctor Hopkins, the Man." Ralph Allen of Delevan, a member of the Soils Advisory Committee, told of Dr. Hopkins' soil survey work in discussing "The Value of the Illinois Soil Survey." "The Scientific Basis of the Illinois System of Permanent Agriculture" was discussed by Dr. Robert Stewart, professor of Soil Fertility at the University, and "The Early Scientific Activities of Dr. Hopkins" was treated by Dr. L. H. Smith, professor of Plant Breeding at the University. Dr. George Bouyoucos of the University of Michigan, who served as captain under Dr. Hopkins in the American Red Cross in Greece, told of Dr. Hopkins' final work and its significance to Greece, in an address on "The Culminating Year in the Life of Dr. Hopkins."

Dr. David Kinney, acting president of the University of Illinois, spoke on "Professor Hopkins, the Public Servant." Brother Leo, superintendent of farms at Notre Dame University, of Notre Dame, Indiana, gave an illustration of the practical application of the Illinois system of permanent agriculture in speaking on "Doctor Hopkins, the True Teacher of the Science of Agriculture," and Dr. E. W. Allen, chief of the office of experiment Stations, United States Department of Agriculture, delivered an address on "The Significance of Dr. Hopkins' Contribution to Agriculture."

WILL FOOT AND MOUTH DISEASE REAPPEAR IN 1920

Dr. Charles E. Scott and Dr. A. C. Boll, local representatives of the National Hog Insurance Company of Springfield, Ill., have received a letter from Dr. A. C. Alexander, chief veterinarian of that company asking them to watch for a reappearance of the foot and mouth disease this year, stating that this scourge has been developing in cycles of six years, as statistics show its appearance in the years of 1902, 1908 and 1914.

Foot and mouth disease is infectious and transmissible and affects cattle, sheep and hogs, rarely any other animals. Hogs as a rule are not affected as seriously as cattle.

The principle manifestations are ulcers in or around the mouth, one or more feet may be involved with vesicles which develop around the coronary band.

The most pronounced symptoms of foot and mouth disease in hogs consist of lameness, lesions being found on the feet. If forced to move, they will probably walk upon their toes. This disease usually runs its course in from one or two weeks, sometimes three. No treatment has been used with any success, this disease being of such a destructive nature that it is advisable to destroy the animals, bury them deep and cover with quick time.

RED CROSS NOTES

Under the new amendment to the war risk insurance act, which has been passed by congress and which became a law on December 24, 1913, when it was signed by the president, war term insurance or United States government life (converted) insurance policies may be made payable to any of the following list of beneficiaries:

Parent, grandparent, stepparent, parent thru adoption, wife or husband, child, grandchild, stepchild, adopted child, brother, sister, half brother, half sister, brother thru adoption, stepbrother, stepmother, uncle, aunt, nephew, niece, brother-in-law, sister-in-law, a person who stood in the relation of a parent to the insured for a period of one year or more prior to the insured's enlistment or induction, the children of such person, parent, grandparent, stepparent, or parent thru adoption of the insured's wife or husband.

United States government life (converted) insurance may now be paid at death in a lump sum or in installments for 36 months, at the option of the insured.

The rate of compensation for disability has been greatly increased. The amounts provided by the new law follows:

Temporary Total Disability.
With neither wife nor child, \$ 80
With wife but no child, 90
With wife and one child, 95
With wife and two children, 100
With wife and three or more children, 100
With no wife but one child, 90
With no wife but two children, 95
With no wife but three children, 100
With no wife but four children, 105

Extra allowance for dependent mother or dependent father or both, each, 10
Under the new law there is an allowance to a man temporarily totally disabled, and with no wife living, of \$5 additional for each child (in excess of one) without limit as to number.

Total and Permanent Disability.
Under the war risk insurance act the same scale applied for total and permanent disability as for temporary total disability. A distinction is made between the two in the new law. Under the latter the compensation monthly for total and permanent disability is \$100.

Under the new amendment if the disabled person is so helpless as to be in constant need of a nurse or attendant, an additional allowance is provided, in the discretion of the director, not exceeding \$20.

Compensation for the loss of both feet or both hands or the sight of both eyes, or for becoming helpless and permanently bedridden is \$100.

In addition, the new law provides that compensation for the loss of one foot and one hand, or one foot and the sight of one eye, or one hand and the sight of one eye, shall be \$100.

The new law provides that for double, total, permanent disability the rate of compensation shall be \$200.

The new law provides: "If and while the disability is rated as partial and temporary, the monthly compensation shall be a percentage of the compensation that would be payable for total and temporary disability, equal to the degree of the reduction in earning capacity resulting from the disability."

"If and while the disability is rated as partial and permanent, the monthly compensation shall be a percentage of the compensation that would be payable for total and permanent disability, equal to the degree of the reduction in earning capacity resulting from the disability."

In no case is compensation payable for a reduction in earning capacity rated at less than 10 per cent.

The new law provides that each of the impairments mentioned in this paragraph shall be deemed to be total, permanent disability.

The local Red Cross would like to get in touch with all men who have been disabled in service or whose earning capacity is in any way impaired by a disability resulting from injury contracted while in service and who have not previously filed a claim for compensation. They will be glad to assist such men in filing their claim and any information or assistance will be gladly given at Red Cross headquarters in the public library.

joy keeps women young and beautiful!

HARD work ages women. The daily house chores, often distasteful, are the telling destroyers.

Why don't you let Joy into your home to do the hard work? Joy, a cool, firm, white soap, goes after pots and pans, dishes and windows, bath tubs and floors, in such a hearty manner that they fairly bristle with brightness! And, my! how clean and sweet the laundry is after washing with Joy!

You never saw anything clean as easily and quickly. There's no scrubbing necessary—just rub a little and Joy disintegrates the dirt, grease and grime almost instantly.

And economical! Joy lasts longer, does the job in less time and better. It doesn't get soft and sticky when wet, either. It's just a plumb everlasting good household soap, working like a wizard all the time. You'll sure like it. Ask your grocer today.

Story's Exchange, Loans and Insurance, Real Estate

Time was in England when men, with no land, had iron collars welded around their necks, and were slaves to their masters—the land owners.

Looks as though we are headed that way in the old U. S. A. Our land has doubled in value nine times in 90 years—an average of once in ten years. Who can say it will not double in the next ten years? You don't think so? Neither did you think so ten years ago, but it has. I know men who have hoarded their money 20 years waiting for land to get cheaper, and have seen values double twice, and still advancing. The reason is plain: 120 million people where there were once 6 millions, and no more land now than then. Fifty men want the same farm—only one can have it.

Every farmer should "salt down" a piece of land somewhere. Use your money and your credit—your neighbor has money to lend, and wants to lend as bad as you want to borrow. BUY LAND WHILE YOU CAN—IT WILL BE HERE WHEN GABRIEL BLOWS HIS HORN, and you can say that of no other investment.

(a) 340 acres, well improved, nice home, \$125 per acre.
(b) A nice little farm of about 40 acres at the edge of town and well improved for \$250 per acre. Don't quit farming, buy it.

(c) Not much more than a stone's throw from the city we offer a high class farm, rich soil, good house, barn, etc., for the price of a good farm ten miles out. You can move to this within ten days, and it is a splendid buy. Let us prove it.

SUBURBAN PROPERTY
The best investment for a man of small means—a few acres where you can market every dime's worth.

(a) Four acres, ideal location, new house, barn etc.
(b) Ten acres, excellent soil, rich as cream, lots of fruit, good six room house, large barn, in fact a young farm complete, and offered worth the money. You should hurry in and see this one.

To be sure, March 1 or sooner on all these.

HOUSES
For two families who want to be near each other, we offer two homes on adjoining lots. Good medium sized houses at medium price.

We have a prime home in the best part of the west side, complete in every particular, sleeping porch and all—only \$6000.

See the new six room bungalow near State street at \$5500. Slate roof, open grate, oak floor—you'll like it.

**TWO SUITS FILED
IN ASSUMPSIT.**
Two suits in assumpsit were
filed in the office of Circuit Clerk
Poston, Thursday. One is that
of M. W. H. Wheeler against
H. C. Woltman. It alleges an in-
debtedness in the sum of \$1,500.
Alice Erickson and Lena Erickson,
executrices of the will of John N.
Erickson, filed a suit in assumpsit
against S. T. Erickson. Only the
principle has been filed and in-
dicates an alleged indebtedness of
\$6,000.

**WORKS HARD TO
AVERT FLU EPIDEMIC**
Government and City Health
Officials Warn People to
Keep Clean.
Stay Away from People with
Coughs and Colds.

"Avoid crowds if you want to
avoid influenza," says Association
for Improving the Conditions of
New York.
Keep your hands clean, drink
plenty of fresh water; sleep with
windows open; eat three uniform
meals a day including a good
breakfast.
People who have catarrh or fre-
quent colds invite influenza, de-
clares a prominent Kentucky
druggist.
The membrane of the throat
and nose is raw, sore and tender,
and makes a lovely abiding place
for germs to thrive and multiply.
He advises an inexpensive home-
made remedy that will bring relief
in less than a day and will stop all
discharge and soothe and heal the
inflamed membrane in a few days.
Thousands are making this be-
neficial remedy at home and any-

JANUARY CLOSING OUT SALE

The big January sale is now on. The sale that hundreds upon hundreds of women have been waiting for, especially so this season on account of the high cost of merchandise.
